

# Professor Cody Teaches Kids to Code Competition 2022

Are you in Year 7 at a UK school - Then why not compete in this year's Professor Cody Teaches Kids to Code Competition?

What do you have to do?

- Complete **Professor Cody Teaches Kids to Code Lessons 1 to 6** (including all activities) – Free video tutorials can be found on YouTube or alternatively buy the **Professor Cody Teaches Kids to Code** book on Amazon.
- Make your own game using **Scratch** that has a **Climate Change** theme
- Your game must use sequences, selection, iteration, variables, lists and broadcasts.
- It must have a maximum of FIVE sprites and not use cloning.
- It must include a Higher Scorer List, so that you know who's winning your game.
- Remember - The coder who makes the winning game will receive £100 gift voucher (kid's choice card)!
- Go to [www.edulito.com](http://www.edulito.com) for more information
